

In this interview with her client, the counsellor explores a number of presenting problems including the client's anxiety, her drug use, the risk of harm to her children, a suicide risk assessment, relationship difficulties, financial problems and past child sexual abuse.

The session includes the following segments:

Anchoring and supporting the client

Exploring the presenting problem: drug use

Looking at the broader picture

Assessing the risks

Offering the client a positive perspective

Exploring relationship difficulties – highlighting past abuse

Suicide risk assessment

Making links between past child sexual abuse and drug use: underlying belief systems

Finding the ally within – the way forward

DURATION: 38 MINUTES
